

Tired of wasting your time filling out the same PDF forms over and over? We can help! With PDF Merge by SystemsNet you can fill out forms with the click of a button. Our plug-in has been designed to integrate directly with ACT! By Sage offering tremendous time saving features for your company.

Many industries are forced to complete PDF forms rather than word document applications and forms due to compliance issues and regulations. This makes it impossible to use the "Mail Merge" feature in ACT! to complete the forms. With PDF Merge, companies can take the approved forms and make them PDF fillable forms and merge data from within ACT, saving countless hours of work. This time saver helps reduce overhead in your company by providing a fast and efficient method for filling out the PDF applications and forms.

### TOP REASONS TO PURCHASE

1. Saves numerous hours of administration each week
2. Saves PDF automatically to the contact's history tab for easy document management
3. Capability to merge single contacts, a lookup, or entire database
4. Option to view PDF immediately upon completion
